

## PRE-PROCEDURE IMPORTANT INFORMATION

**\*\*\*PLEASE READ AT LEAST FIVE DAYS BEFORE YOUR PROCEDURE\*\*\***

At least two days prior to your procedure, the procedure center will text you to confirm your arrival time and review information regarding your procedure.

### **PLEASE BE ADVISED OF THE FOLLOWING:**

It is your responsibility to contact your insurance company to learn whether a specific procedure is covered and if it will be applied to a deductible. Some insurance plans have riders and underwriting on the plan that may or may not cover any or all of the procedure. We want you to be aware and understand the specifics of your insurance coverage. We are happy to provide you with the codes that could be used when submitting your claim to the insurance company.

Depending on the location of your procedure, that location's billing department will verify your insurance benefits and inform you prior to your procedure day if a facility payment is required at the time of service. Anesthesia, pathology, and physician charges will be filed with insurance for determination of additional patient financial responsibility.

### **\*\*\*VERY IMPORTANT\*\*\***

There are three (3) entities involved that will send a bill following your procedure. You can call the phone numbers provided for procedure estimates and billing questions.

## On the day of your procedure:

1. You will be required to have someone available to drive you home after the procedure. You cannot and will not be allowed to drive following the procedure. You will not be released to any public mode of transportation (i.e. taxi, uber, Lyft). Due to the effects of the medications, you may not remember the instructions given to you after the procedure. **Your driver must stay on the premises while you are having the procedure and be available to speak with the physician and/or staff regarding your post-procedure instructions and findings.**
2. Please leave all your valuables at home except for your photo ID, insurance card, and any copayment you may be required to bring for the procedure. **If your insurance has changed since your procedure was scheduled, you must contact Associates in Gastroenterology at 615-885-1093 and provide them with this new information.**
3. Complete the **PATIENT MEDICATION RECONCILIATION FORM** provided and bring with you to your procedure appointment. It is very important that the nursing staff and physician know what medications you are taking (including over-the-counter medicines and herbal supplements). Please be sure to include the dosage you are taking and the date of your last dose.
4. **Aspirin type products, including blood thinners, should have been held as instructed by your physician.** This includes Plavix, Warfarin, Ticlid, Eliquis, Prasugrel, Xarelto, Brilinta, and Coumadin. Please contact your **AiG nurse at 615-885-1093** with any questions regarding these medications.
5. You may not eat or drink anything for at least four (4) hours prior to your procedure unless it is related to your prep instructions. Please follow the necessary bowel preparation instructions provided for your procedure. No mints, gum, cough drops, ice chips, or sips of any liquid for four (4) hours prior to your procedure. No recreational drugs or alcohol for 24 hours prior to your procedure.
6. The only medications you should take the day of your procedure should be for blood pressure or heart medications, unless otherwise instructed.
7. Wear comfortable clothing. **DO NOT wear contacts.** Glasses are permitted.

## EGD Prep General Instructions

- Nothing by mouth after midnight prior to procedure, including gum, mints, candy, or water.
- Do not use any recreational drugs or alcohol for 24 hours prior to your procedure.

### Medications

- You will need to stop taking full-dose aspirin (325mg), blood thinners and/or arthritis medications such as Motrin, Advil, Vitamin E, and herbal supplements for 5 days prior to your procedure, unless otherwise instructed. You may take Baby Aspirin (81mg), Tylenol, multi-vitamins, and all other prescription medications. If you are unsure about a medication, please ask your physician or nurse. Please see attached list of medications to avoid.
- If you take heart, blood pressure or seizure medications you should take them as directed the morning of your procedure with a small amount of water. All other medications should be held until instructions are given after your procedure.
- GLP-1 medications, such as Dulaglutide (Trulicity) (weekly), Exenatide extended release (Bydureon bcise) (weekly), Exenatide (Byetta) (twice daily), Semaglutide (Ozempic) (weekly), Liraglutide (Victoza, Saxenda) (daily), Lixisenatide (Adlyxin) (daily), Semaglutide (Rybelsus) **MUST BE STOPPED prior to your procedure** and taken as follows:
  - If taken once a day, hold the medication the day of the procedure.
  - If taken once a week, hold the medication one (1) week prior to your procedure.
  - Consult with your endocrinologist if taking GLP-1 agonist for diabetes.

### Don't Forget

- If you do not follow these directions, your exam may have to be repeated or rescheduled.
- You must have a responsible adult to accompany you home. **If you do not have an adult escort, your procedure will be cancelled and rescheduled.**
- You need to bring your insurance card and a photo ID with you.
- Please bring your medication list with you on the day of your procedure, along with the date your medication was last taken.
