

PRE-PROCEDURE IMPORTANT INFORMATION

***** PLEASE READ AT LEAST FIVE DAYS BEFORE YOUR PROCEDURE *****

At least two days prior to your procedure, the procedure center will text / call to confirm your arrival time and review information regarding your procedure.

PLEASE BE ADVISED OF THE FOLLOWING:

It is your responsibility to contact your insurance company to learn whether a specific procedure is covered and if it will be applied to a deductible. Some insurance plans have riders and underwriting on the plan that may or may not cover any or all of the procedure. We want you to be aware and understand the specifics of your insurance coverage. We are happy to provide you with the codes that could be used when submitting your claim to the insurance company.

Depending on the location of your procedure, that location's billing department will verify your insurance benefits and inform you prior to your procedure day if a facility payment is required at the time of service. Anesthesia, pathology, and physician charges will be filed with insurance for determination of additional patient financial responsibility.

***** VERY IMPORTANT *****
